

The industrial water treatment reference

ION EXCHANGE, FILTRATION, MEMBRANE SEPARATION, ULTRA-VIOLET, ELECTRODEIONIZATION, OZONE ...

Pharmaceuticals

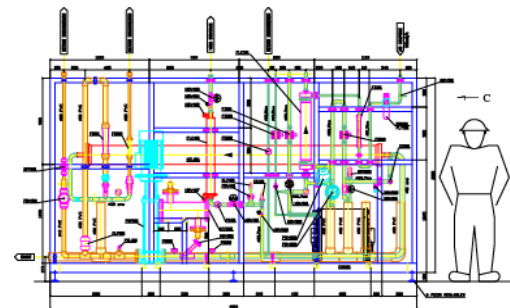

Customer : Pharmaceutical laboratory
Area : Gidy/France
Description : Purified water production

Comments :
Pre-treatment, reverse osmosis, EDI 2 x 1000l/h
Storage 10 m³ - Sanitisation to 85 °C
Distribution EPU 25 m³/h

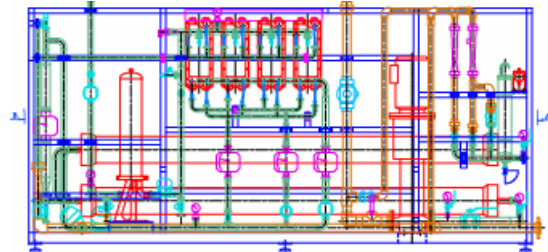

Customer : Veterinary Laboratory
Area : Haute-Saône/France
Description : Purified water production

Comments :
High purified water production Skid 3000 l/h
Purified water storage modification
High purified water distribution Skid 40 m³/h

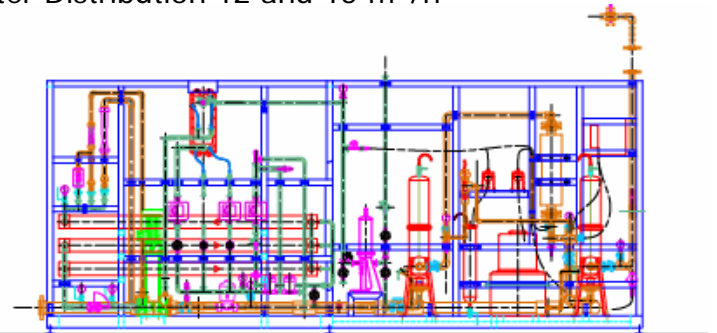

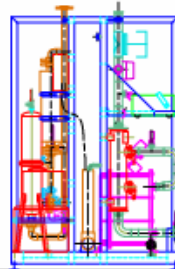

Customer : Pharmaceutical laboratory
Area : Aramon/France
Description : Purified water production

Comments :
Purified water production in accordance with the european pharmacopoeia 6,5m³/h
Purified water Storage 40 m³
Purified water Distribution 2 x 30m³/h

Customer : Pharmaceutical Laboratory
Area : Aramon/France
Description : Purified water production

Comments :
Purified water production in accordance with the european pharmacopoeia 1 et 2,5m³/h
Purified water Storage 10 and 12 m³
Purified water Distribution 12 and 15 m³/h

Customer : Pharmaceutical Laboratory
Area : Vertolaye/France
Description : Purified water production

Comments :
Production by reverse osmosis and electrodeionization 1m³/h
Ozone sanitisation
Cold Distribution 10m³/h

Client : Phytotherapy Laboratory
Région : PACA/France
Description : Purified water production

Comments :
Double -pass reverse osmosis Production 2m³/h
Cold loop and hot loop 30m³/h
Ozone Sanitisation

Customer : Pharmaceutical Laboratory
Area : Rhône-Alpes/France
Description : Purified water production

Comments :
Purified water production 3m³/h : R/O + Mixed bed
Storage and distribution 15 m³/h - Ozone - UV
Photo-Oxydation 20m³/h

Client : Pharmaceutical Laboratory
Région : Quetigny/France
Description : Purified water production

Comments :
Purified water production by reverse Osmosis + EDI 6 m³/h
Cold loop Ozone + UV 40 m³/h
Super heated water sanitization

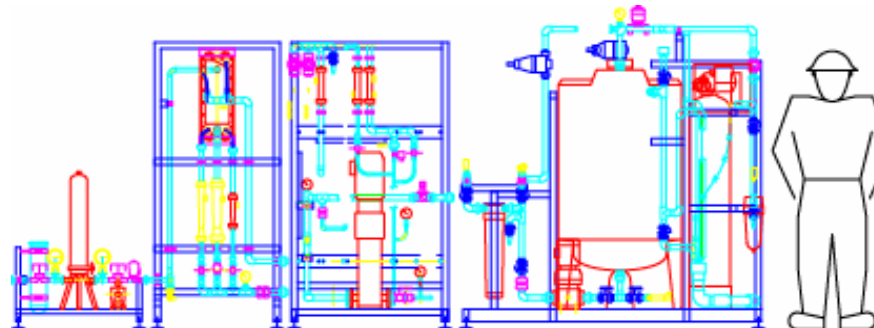

Customer : Pharmaceutical Laboratories
Area : Marcy l'Etoile/France
Description : Purified water production

Comments :
Reverse osmosis and electrodeionization 2 x 10 m³/h

Customer : Pharmaceutical Laboratories
Area : Pithiviers/France
Description : Purified water production

Comments :
Pre-treatment, reverse osmosis, Electrodeionization 1000 l/h
Storage and distribution 50 m³/h (loop)
Sanitization : O₃ + UV

Customer : Pharmaceutical laboratories
Area : Eure & Loire/France
Description : Water for injection Production

Comments :
PPI water distribution at 85° 13 m³/h
Including process tank and control

Customer : Pharmaceutical laboratories
Area : Yvelines/France
Description : Water for injection Production

Comments :
Production by reverse osmosis and electrodeionization
Distribution 1,5 m³/h

Customer : Pharmaceutical laboratories
Area : Vitry sur Seine/France
Description : Water for injection Production

Comments :
Production and double-pass reverse osmosis distribution skid
2,3 m³/h

Customer : Pharmaceutical laboratories
Area : Idron/France
Description : Water for injection Production

Comments :
Production by reverse osmosis and electrodeionization 6,5 m³/h
Cold loop distribution with sanitization by ozone/UV 40 m³/h

Customer : Pharmaceutical laboratories
Area : Neuville/France
Description : Water for injection Production

Comments :
Pre-treatment Skid
Purified Water Production Skid - RO + EDI - 2 x 5,7 m³/h
Concentrat Treatment by RO
